

Loud We Scream

Black pearl inside a shipwreck,
black pearl you can't step back,
deep down in your mind,
I'm Shure you will not find,

Black pearls on your back,
I'm sure you can check,
You will not find anything,
Just get in the ring

Just so far, just a dollar and a car, a long dusty road an endless street,
You and your pearl, dirt on the wheel, endless night far away those bloody fights,
Loud we scream, you and your pearl.

Black pearl inside a car,
black pearl is just so far,
you will see an empty seat,
you look so sweet,

black pearl in the air,
black pearl you don't care,
You will not find anything,

Just get in the ring

Just so far, just a dollar and a car, a long dusty road an endless street,
You and your pearl, dirt on the wheel, endless night far away those bloody fights,
Loud we scream, you and your pearl.

Loud we scream, you and your pearl.

Just so far, just a dollar and a car, a long dusty road an endless street,
Loud we scream, you and your pearl.
You and your pearl, dirt on the wheel, endless night far away those bloody fights,
Loud we scream, you and your pearl.
